Insights

1. Most viewers watch a few popular TV channels.
2. More people watch TV during certain hours of the day.
3. Viewer numbers are different for each age group and gender.
4. People watch TV differently on weekdays and weekends.
5. Some provinces have more viewers than others.
6. Some viewers spend more time watching TV than others.
7. The dashboard helps show when and how people watch TV.

Recommendations

1. Show popular programmes during the busiest viewing hours(07:00 to 22:00).
2. Improve content on channels with fewer viewers such as kynet, mk and Wimbledon.
3. Create programmes that match the interests of different age groups and genders.
4. Advertise more in provinces with fewer viewers.
5. Run special promotions on days or times with low viewership(Monday and Tuesday).
